

## Decima (DCMA) – Whitepaper

### A Sovereign-Grade Cryptocurrency

*Issued by Decima Technologies Pvt. Ltd. | Backed by Banco de Seychelles*

#### 1. Executive Summary

**Decima (DCMA)** is a premium, sovereign-grade cryptocurrency issued on the **BNB Smart Chain (BEP-20)** network. Designed for ultra-high-value digital transactions and asset tokenization, Decima is one of the world's first cryptocurrencies with a **fixed price of \$110,000 USD per coin** and a **total supply of 21 million coins** — mirroring the scarcity model of Bitcoin but with institutional-grade backing.

The token is fully backed by **\$3 trillion in Cold Wallet Bitcoin reserves** and **\$10 trillion in cash commitments** held by **Banco De Seychelles**, a strategic financial technology and digital reserve asset firm.

With Decima, we aim to create a reliable, globally recognized, high-value digital currency for private, governmental, and institutional use cases.

### 3. Use Cases

- **High-Value Wealth Transfers:** For investors and entities seeking stable, high-denomination cryptocurrency movement.
- **Private Holdings and Sovereign Reserves:** Ideal for long-term treasury reserves or digital sovereign wealth storage.
- **Blockchain-Based Asset Tokenization:** Acts as a base pair for tokenizing real estate, gold, or infrastructure projects.
- **Digital Financial Instruments:** Enables creation of structured digital assets backed by real-world reserves.

### 4. Tokenomics

- **Fixed Supply:** 21,000,000 DCMA
- **Initial Distribution:** 100% premined to cold wallets
- **Public Circulation:** Via direct transfers, OTC trades, and private placements
- **Liquidity:** Minimal required liquidity on PancakeSwap to support visibility and valuation anchoring
- **Custody:** Cold storage supported by Decima Vault, institutional custody to follow
- **Inflation-Proof:** Fixed supply with no mint/burn permissions in contract

### 5. Governance and Security

- Smart contract audited (manual and automated checks)
- Verified on **BscScan** with creator address publicly signed
- Wallet ownership fully visible and traceable
- Liquidity and price structure protected against manipulation via OTC-only model in early phases

## 6. Listing and Visibility

- ☒ Contract verified and live on BscScan
- ☒ Token recognized and tradeable via PancakeSwap (DCMA/BNB)
- ☒ Submission to CoinGecko underway
- ☒ Trust Wallet GitHub PR created for official logo and name listing
