

Decima (DCMA) – Whitepaper

A Sovereign-Grade Cryptocurrency

Issued by Decima Technologies Pvt. Ltd. | Backed by Real World Assets

1. Executive Summary

Decima (DCMA) is a sovereign-grade cryptocurrency launched on the BNB Smart Chain (BEP-20) network. Designed for ultra-high-value digital transactions and asset tokenization, Decima is one of the world's first cryptocurrencies with a **fixed price of \$110,000 USD per coin** and a **total supply of 21 million coins** — mirroring the scarcity model of Bitcoin but with institutional-grade backing, uniquely supported by a robust ecosystem of real-world businesses, infrastructure assets, and intellectual property.

The valuation is **strategically backed by future projected revenues and tangible asset portfolios** from multiple high-growth sectors — airports, airlines, fintech, healthcare, defense, artificial super intelligence, and infrastructure. The DCMA token is designed for high-value transactions, sovereign wealth storage, and enterprise-level blockchain tokenization applications.

Unlike other tokens and cryptocurrencies where the asset is backed by one primary source of liquidity which is demand vs supply, the DECIMA token [DCMA] on the other hand is provided with multi backing of **\$5 trillion USD (projected)** through **multi-project and product initiatives**, supported by Banco De Seychelles; a strategic financial technology and digital reserve asset firm along with our real-world assets.

With Decima, we aim to create a reliable, globally recognized, high-value digital currency for private, governmental, and institutional use cases backing our real-world projects.

2. Project Highlights

Attribute	Details
Token Name	Decima
Ticker	DCMA
Chain	BNB Smart Chain (BEP-20)
Contract	0xe24a7f6cdf72376df2ea82e0c0b0e2548c41efcc
Total Supply	21,000,000 DCMA, Fully Decentralized, Non-Mintable
Token Price	\$110,000 USD (fixed)

Current Trading Price	\$146,000 USD as on 28 July 2025
Current Market Cap / FDV	\$3.8 Trillion USD (market cap), at launch \$2.31 Trillion USD
Ownership	Dr. Yuvraj Kumar, Decima Technologies [CIN: U62020TR2024PTC014433]
DEX Pair	DCMA / WBNB (PancakeSwap V3)
Explorer	https://bscscan.com/token/0xe24a7f6cdf72376df2ea82e0c0b0e2548c41efcc
Holdings	Trust Wallet

3. Real-World Asset Backing

DCMA's pricing model is justified by the backing of BDS* Holdings' business portfolio:

3.1. Om Sai Airports Private Limited [CIN: U43900TR2023PTC014314]

- To acquire 20+ Indian airports (e.g. Chennai, Kolkata, Shirdi) on a 33-year lease.
- To construct Greenfield project: India's first **5-runway airport** under development in Chhattisgarh, worth ₹5000 Cr.
- Environmental Clearance (EC) filed with MoEF, under review.

3.2. Om Sai Airlines Private Limited [CIN: U51101TR2023PTC014319]

- To setup and operate **29 regional airlines** in India (e.g. Air Andhra, Air Telangana).
- In-principal MoU signed with **Yakovlev, Govt. of Russia** (formerly Irkut Corporation) for 2,200 aircrafts including MC21/300, Tupolev, and Superjet-100.

3.4. Decima Technologies Private Limited [CIN: U62020TR2024PTC014433]

- World's **first Artificial Super Intelligence (ASI)** company.
- Products include:
 - **9 novel drug discoveries** (projected value: \$5 trillion/year).
 - **Synthetic blood manufacturing** (market: \$15 billion/year in India alone).
 - **Autonomous Airport Operations Platform (NorthernLights)**.
 - **Bomb threat detection Platform, AEROvoice (ATC Assist)**, and **facial profiling for education, defense, judiciary** and more.
 - **Proactive Diagnostics Platform (MicroAID)**

These pillars support a total projected economic ecosystem value exceeding **\$2.31 trillion**, anchoring the fixed DCMA price of \$110,000 per coin.

Value Proposition:

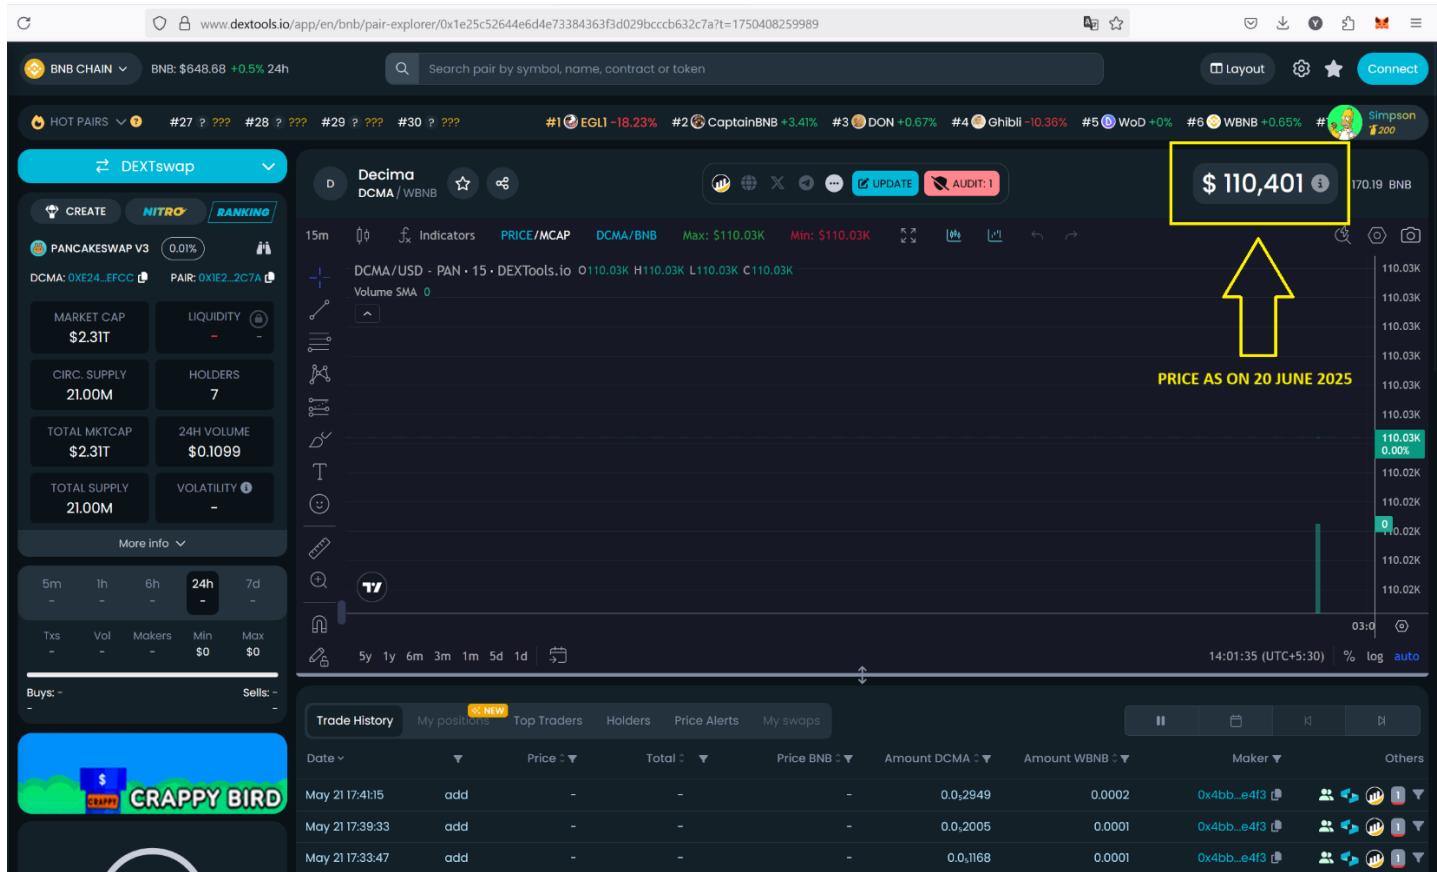

- **High-Value Wealth Transfers**: For investors and entities seeking stable, high-denomination cryptocurrency movement.
- **Private Holdings and Sovereign Reserves**: Ideal for long-term treasury reserves or digital sovereign wealth storage.
- **Blockchain-Based Asset Tokenization**: Acts as a base pair for tokenizing real estate, gold, or infrastructure projects.
- **Digital Financial Instruments**: Enables creation of structured digital assets backed by real-world reserves.

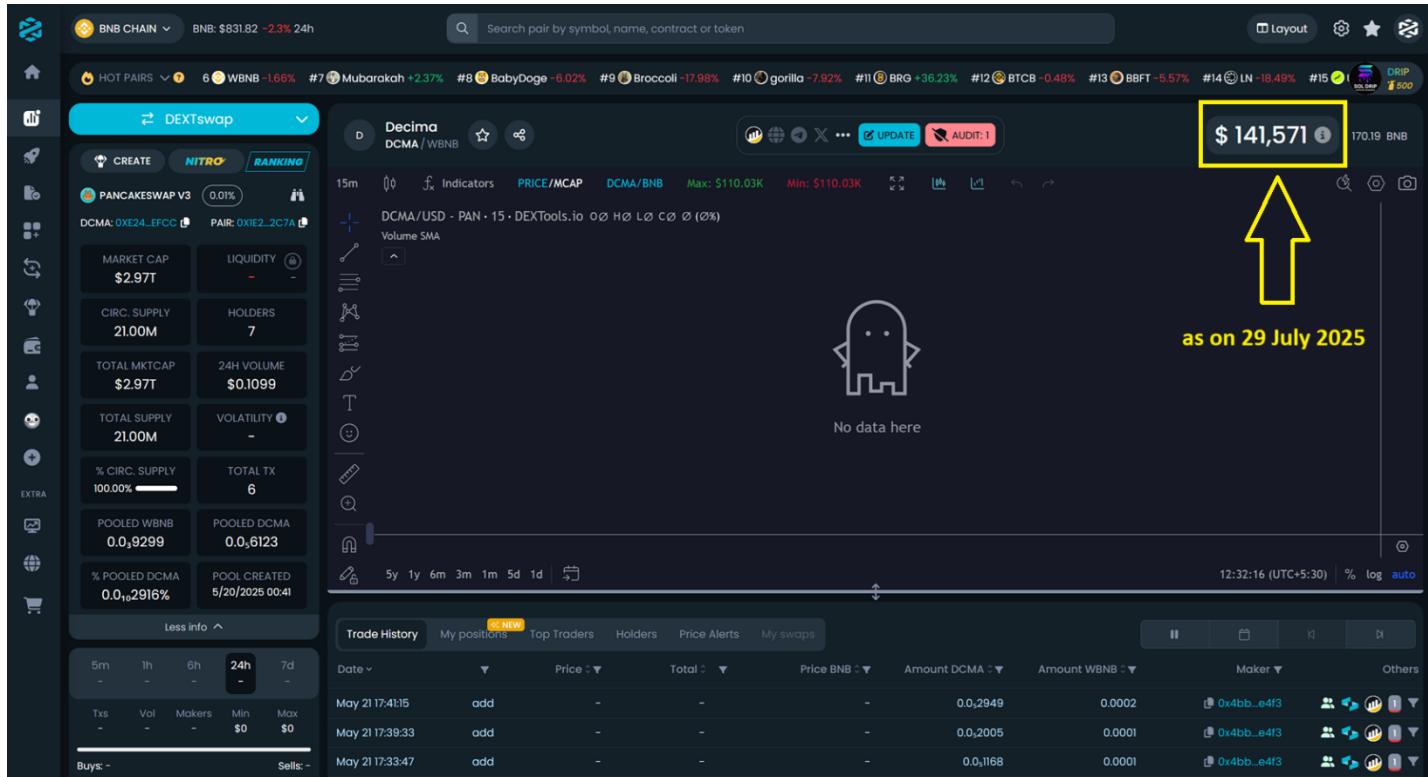

4. Use Cases

- **Sovereign Digital Reserves**: Used by governments and institutions as a secure digital asset.
- **Asset Tokenization**: Base token for real estate, infrastructure, and gold-backed token offerings.
- **Private High-Value Transactions**: Ideal for billionaires, family offices, and private equity entities.
- **Structured Digital Products**: Underlying token for stablecoins, security tokens, and digital derivatives.

5. Tokenomics

- **Fixed Supply:** 21 million DCMA
- **Initial Distribution:** Fully pre-mined to institutional custodial wallet
- **Price Model:** Anchored at \$110,000 USD per coin, trading at \$146000 USD
- **Liquidity:** Paired with WBNB on PancakeSwap (V3)
- **Circulation:** Via OTC trades, Trust Wallet, and verified private placements.
- **Custody:** Trust Wallet
- **Inflation-Proof:** Fixed supply with no mint/burn permissions in contract

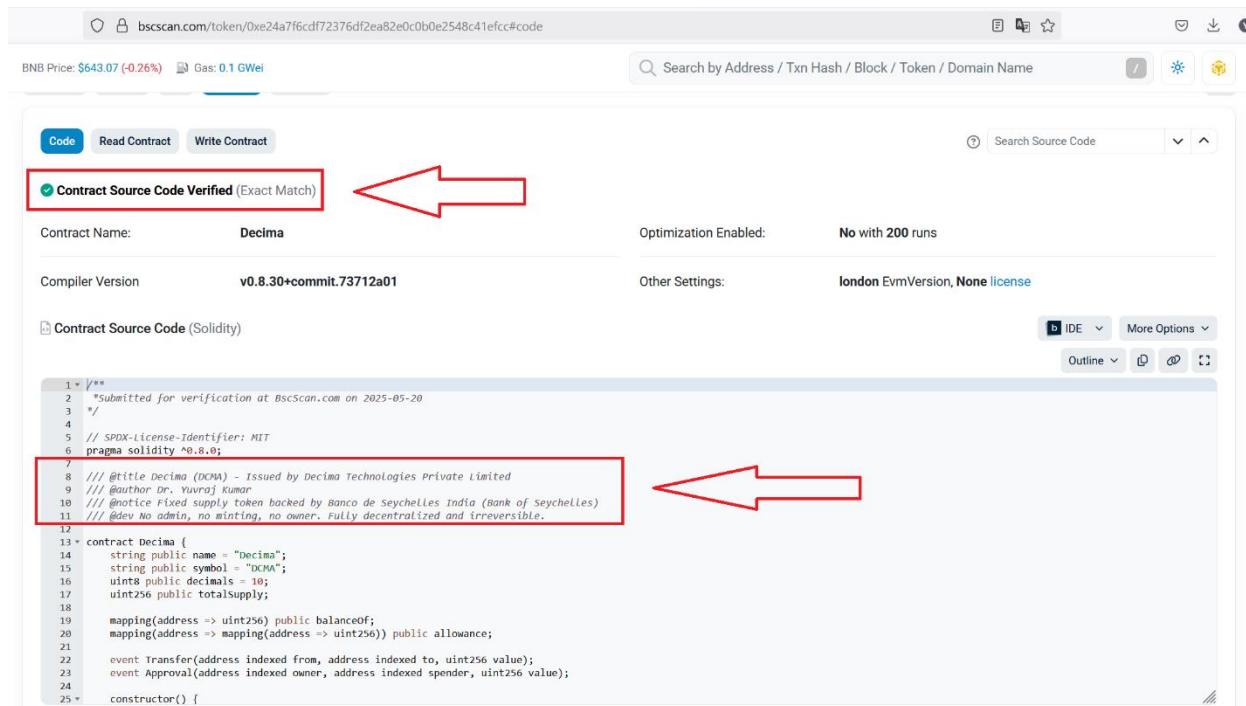

DEX URL: <https://www.dextools.io/app/en/bnb/pair-explorer/0x1e25c52644e6d4e73384363f3d029bcccb632c7a?t=1750408259989>

6. Governance and Security

- Smart Contract:** Audited and verified on BscScan
- Public Wallet Proof:** Rich list and ownership visible for audit
- No Mint/Burn Rights:** Prevents manipulation of supply
- Wallet ownership fully visible and traceable
- Liquidity and price structure protected against manipulation via OTC-only model in early phases

7. Listing and Visibility

- Contract verified and live on BscScan
- Token recognized and tradeable via PancakeSwap (DCMA/BNB)
- Submission to Trust Wallet, CoinGecko etc. underway

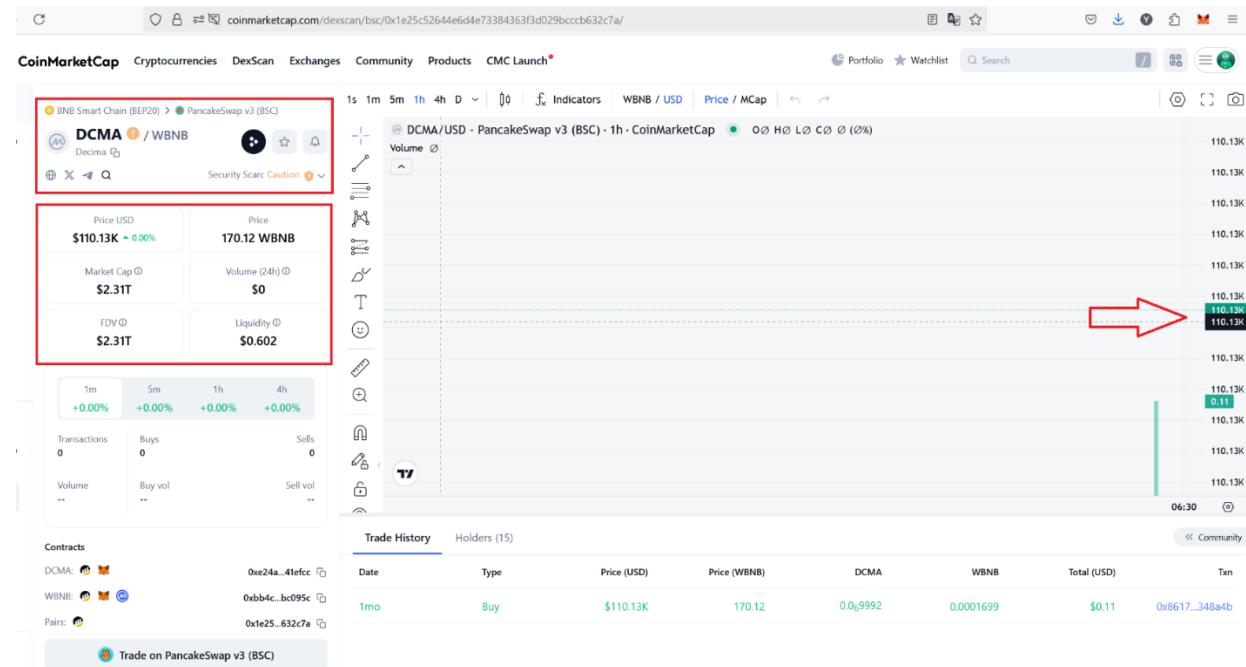

The screenshot shows the BscScan interface for the Decima contract. A red arrow points from the "Contract Source Code Verified (Exact Match)" message at the top left to the code editor area. Another red arrow points from the code editor area down to the specific SPDX license header.
